6 h

3

The base of module has a switch that allows the ON / OFF function with short pulsation and the regulation by pressing continuously.

La capacidad total de la batería es de 5200mAh, que le permiten una autonomía de 6 horas a máxima luminosidad.

4

IMPORTANT! The battery is charged by induction but the charging base is NOT suitable for outdoor use, it does not have protection against water, so it is only used indoors.

The charge lasts approximately 8 to 10 hours. During charging the luminaire must remain off.

¡IMPORTANTE! La batería se carga por inducción pero la base de carga NO es apta para uso en exterior, no tiene protección contra el agua, por lo que el uso de la misma es únicamente interior.

La carga dura aproximadamente de 8 a 10 horas y durante la misma la luminaria debe permanecer apagada.

Please note that for environments with a high salinity, proper maintenance of the luminaire will be necessary. We recommend cleaning it with a soft brush and remove dust, dirt deposited or salt by moisture or wind.

Tenga en cuenta que para ambientes con alto grado de salinidad, será necesario realizar un correcto mantenimiento de la luminaria. Recomendamos limpiar con un cepillo suave y retirar el polvo, la suciedad o la sal depositada por la humedad o el viento.
