a·emotional light unveils renewed identity and innovative designs at Light+Building 2024

Santiago de Compostela, 28 February 2024 – a·emotional light, the renowned lighting company, proudly announces its presence at the Light+Building fair with a revamped appearance and a deeply rooted philosophy. With a fresh graphic identity highlighting its new product challenges and a reaffirmation of its brand values, the company showcases a selection of its latest designs. Successful collection expansions and artisanal lamps have strengthened its position as a leading decorative lighting enterprise.

**a·emotional light will be located at Hall 3.1, Stand D55.
3-8 March**

New & Classic Designs Unveiled

Anel. Our in-house team conceptualised the Anel ceiling and suspension proposal, focusing on chandelier aesthetics and texture. Featuring a circular distribution of light, Anel offers efficient lighting suitable for various settings, with easy surface mounting. Its steel mesh cylinders create a unique blend of planes, diagonal lines and concentric shapes, embodying elegance and individuality.

Blossom. Designed by the Spanish interior designer **Teresa Sapey**, Blossom stands out as the epitome of positivity and aesthetic appeal. This table lamp, with its asymmetrical shape and colour-changing properties, produces elegant lighting effects adaptable to any environment, reflecting the ephemeral beauty of nature.

Era. Conceptualised by **Isaac Piñeiro**, Era celebrates craftsmanship using glass as a primary element. Its combination of shapes achieves maximum expressiveness through light and colour, emanating warmth and classic proportions to create serene environments.

Cabana. Also designed by **Isaac Piñeiro**, Cabana aims to evoke a sense of seclusion and shelter reminiscent of traditional Galician huts. Utilising innovative 3D knitting techniques for the lampshade and recycled materials, Cabana offers comfortable, homogeneous illumination while minimising its carbon footprint.

Parga. Parga merges stone and light in a captivating fusion, striking a harmonious balance between natural elements. Designed by **Cenlitros**, this pendant lamp collection transcends conventional aesthetics, drawing inspiration from raw granite pieces sourced from Galician quarries. Crafted meticulously, each lamp exudes a primal allure akin to ancient stone carvings, championing sustainable material usage. Parga's compact, light-grey granite, adorned with black specks, offers a captivating yet neutral palette, perfect for both functional and decorative indoor spaces. With its evocative design and eco-conscious ethos, Parga stands as a testament to the timeless allure of nature-infused craftsmanship.

Cambo. Crafted in collaboration with **Cenlitros** studio, Cambo epitomises the intricate beauty of nature's forms. Inspired by the branching patterns of trees, this collection captures organic growth with its beech wood structure and painted stainless steel mesh. Each element of Cambo's identity showcases the innate elegance of natural materials, offering a versatile platform for unique lighting arrangements. Whether as a table lamp or suspension model, Cambo brings a touch of natural sophistication to any space, blending organic aesthetics with modern craftsmanship.

Mytilus. Inspired by the dynamic movement of the sea, Mytilus is a mesmerising collection of pendant lamps designed by **Arturo Álvarez**. Handcrafted in Spain, each luminaire captures the fluidity and grace of ocean waves with organic shapes and sinuous contours. Exuding timeless elegance, Mytilus infuses spaces with a sense of fluidity and tranquillity, serving both as a functional lighting fixture and a piece of art.

Hipatia. Named in honour of the pioneering Greek philosopher Hipatia, this portable LED lamp embodies innovation and enlightenment. Handmade in Spain with the finest materials, Hipatia combines historical significance with a contemporary design. Its sleek form exudes sophistication, while its IP64 rating ensures durability for indoor and outdoor use.

Gea. Taking its name from the primordial goddess of the earth, Gea celebrates the beauty and resilience of nature. Designed by **Arturo Álvarez**, each luminaire from the Gea collection represents the timeless elegance of the natural world, with stylised forms reminiscent of upright female figures. Crafted from painted stainless steel mesh, Gea exudes ethereal beauty, adding organic sophistication to any interior space. Whether as a wall lamp or floor lamp, Gea transforms spaces into sanctuaries of serenity and grace, an ethereal ambiance.

News 2024. Collection Expansions.

Tempo. Designed by artist and designer **Arturo Álvarez**, Tempo introduces a larger model to its pendant lamp collection, showcasing dynamic pleated stainless steel mesh for a unique lighting experience.

Nebra Inox. Expanding the Nebra collection designed by **Cenlitros**, Nebra Inox captures the essence of the rising sun through a misty veil, offering a blend of direct and indirect lighting for an ethereal ambiance.

About a·emotional light

At a·emotional light, emotion takes on a unique value. Craftsmanship, exclusivity and the power to evoke emotions through light guide our bespoke creations. For over 25 years, our workshop in Northern Spain has been an artistic hub, crafting lamps that glow with a unique identity, stirring emotions wherever they shine.

Born on the shores of the Atlantic ocean, diverse cultures have shaped our journey. We embrace our local heritage while welcoming global influences, propelling us to illuminate spaces in over 80 countries. Collaborating with designers who share our passion, we strive to create luminaries that stand the test of time, constantly evolving toward innovative and avant-garde designs.
